# INTERNATIONAL CONFERENCE OF EDUCATIONAL INNOVATION THROUGH TECHNOLOGY (EITT)

With its first-time 2012 inception in Tsinghua University, the International Conference of Educational Innovation through Technology (EITT) provides a forum for researchers who study technology and education to publish research findings and exchange experiences in related topics. Since then EITT has been held as the annual conference organized by the Society of International Chinese in Educational Technology (SICET).

In 2017, the sixth EITT will be held on December 7-9, 2017 in Osaka, Japan, with the following themes:

- Educational information strategies, policies, and assessment
- Theories and practices of educational technology integration into curriculum
- Theories and practices of open and distance education
- Intelligence, mobile, and ubiquitous learning
- Theories and practices for teacher education and development
- Innovation of Chinese and language teaching in digital learning environment
- Development and application practice of education platform
- Technology, structure, and standards related to information system in education

## ABOUT IJTTL

The International Journal of Technology in Teaching and Learning (IJTTL) is a refereed international Semi-annually online journal sponsored by the Society of International Chinese in Educational Technology (SICET). It publishes original materials concerned with the theoretical underpinnings, successful application, and potential for advancing technology integration in a global range at all education levels. The primary mission of the IJTTL is to explore multiple perspectives of technology integration and promote research, positions, and practices that advance the application of technology for teaching, learning and training. IJTTL is inviting manuscripts under the main scope of integrating technology into teaching and learning on all related topics.

## ABOUT JETDE

The Journal of Educational Technology Development and Exchange (JETDE) is a refereed international journal published four issues annually (since 2013) in print and online by the Society of International Chinese in Educational Technology (SICET). With the aim of providing a platform for international Chinese scholars and experts in the field of education technology and encouraging academic cooperation, communication, and support among professionals, JETDE provides a multidisciplinary forum and focal points for SICET members to exchange practice and research between disciplines, educational levels, and educational technologies.
